

I. D. SUMMARY OF TRAINING

Over the past year the Environmental Services Division's Stormwater staff focused on the requirements of the NPDES permit with continued training for Environmental, Building and Safety, Development Services and General Services staff. Also reviewed were the requirements of the new NPDES General Construction Permit for stormwater discharges associated with construction and land disturbance activities that became effective on July 1, 2010. Emphasis was on continued reinforcement of the inspection requirements of the Stormwater program as it relates to construction activities. Discussion focused on the new numeric action levels and effluent limitations, risk assessment and monitoring requirements.

Reviewed the Stormwater Program requirements for the new General Construction Permit. Dates: January 19, 2011 – February 23, 2011.
